

## MELAMINE Doors and Panels - Care & Maintenance

Your **Melamine** doors and panels are manufactured from the highest quality materials to provide years of trouble free service.

Whilst made from a moisture resistant medium density fibreboard (MR MDF) panels cannot be made totally waterproof and care should be taken to wipe up spills immediately, ensuring the doors are not exposed to high or continuous levels of moisture, steam and humidity.

**MELAMINE** doors and panels should be cleaned as follows:

### Stains

Using a mild household spray wipe down the door or panel with a soft cloth taking care not to rub too hard. Dry using a soft cloth so as not to leave any solvent on the door or panel.

You can also use Methylated Spirit on a soft cloth using a circular cleaning motion. Thoroughly clean over the area with water and detergent on a damp cloth afterwards to remove any residual Methylated Spirits.

To ensure that your guarantee will not be void, **DO NOT** use any of the following on **Melamine** doors and panels:

Commercial Cleaning Products, Abrasive Cleaners, Scouring Pads or Abrasive Papers, Acids and Alkalis, Solvents, Thinners, Turpentine, Ammonia, Bleach, Acetone, and any other cleaning agents containing organic solvent or the above mentioned products.

Australian Timbers provide a 7 year warranty on all doors and panels products which ensures against workmanship and manufacturing defects. If you detect any problems with your doors or panels Australian Timbers must be notified within 7 days from the date your doors and panels were manufactured. Failure to follow the above care instructions could result in damage to your doors and panels and void your warranty.

Australian Timbers 273 Magill Road, Trinity Gardens SA 5068
